

12/12/2025 minutes

Sunny

Edward

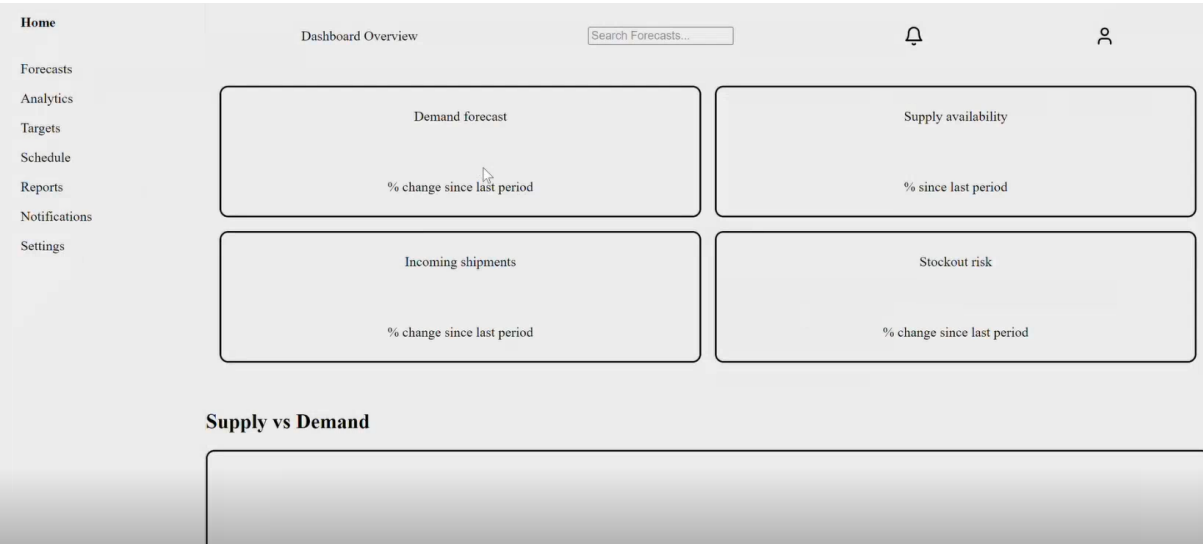

Ethan

Sandesh (client)

Recap of last meeting, sunny showed model

Edward has completed aws

Ethan has created a basic html design

Sandesh shows a mock of a similar design frame

Ethan to look into react in order to replicate the model shown in time for January

Sunny discussing him not being able to find any apis but Sandesh has said he will send/ make some if needed.

Edward talks about pos systems which will allow the data to be effected as soon as it has been sold or changed.

Sunny enquires about what dataset to use in order to test the model to test its working. This wont be the training data set. Lambda will be able to be used to do this job.

Sandesh recommends book on time forecasting

Next meeting on 19/12/2025
